Unbloomed Seedlings
Seeds

Specializing in RECENT INTRODUCTIONS

J. R. and C. T. LARUS
19 Woodside Circle
Hartford 5, Conn.

#### INTRODUCTION

This year we grew approximately 300 named varieties, of which about 200 were introduced within the last four years. Of last year's introductions we grew 50 and have observed many others; from this 50 we have selected about 25 for listing. Our aim is to grow the new varieties that seem most promising, discard those that do not appear worthy and offer the best ones in our catalog.

Our 1947 catalog contains about 160 varieties, including over 110 of the best Recent Introductions - we suspect the largest list of new ones available in any current catalog. It is our aim to improve this list each year by adding the best of the new ones and removing the varieties that prove inferior to them.

It is often difficult to tell from descriptions just how good a particular variety is. For this reason we rate all varieties on the basis of our experience, also taking into consideration performance at shows, symposiums, and consultations with other growers and judges. Our ratings are on an over-all basis, including beauty, height, flowerhead, number open, attachment, consistency, disease resistance, etc. Our ratings are largely from the viewpoint of desirability as a cut flower and for exhibition. Varieties listed in Group (1) are Outstanding, (2) Excellent, (3) Very Good, and (4) Worth Growing. Many varieties which we grow have been excluded because they have not proved of sufficient merit.

We are again this year offering some of our mixed unbloomed seedlings. All bulbs are from crosses hand-pollenated in 1944 and have not yet bloomed. There should be a wide range of colors, for we have been striving to obtain improvement in each of the color classes. Medium bulbs only are offered this year, at 10 for 75¢. The heavy demand for similar bulbs last year, and our desire to keep a good number for our own growing, forces us to limit each customer to 10.

We are also offering seeds from selected crosses made this past summer. You will notice that the seed parents have been carefully chosen from new and outstanding varieties, with the laws of plant inheritance in mind. If you haven't grown seeds and seedlings you have missed what is probably the most fascinating aspect of our hobby. Packets of 20 seeds of any of the crosses below (seed parent given first) are 50¢ each. While we have a good supply of each cross, the different ones will probably not sell evenly, so we may fairly soon find ourselves exhausted in some. We suggest, therefore, that you list one cross that can be used as a substitute for each two packets on your order. In acknowledging order we will state whether or not it will be necessary to make any substitutions and if so, which of your choices it will be.

> Arethusa x Athlone Buena Vista x Purple Supreme Corona x Burma Corona x Golden State Corona x King Lear Crinkle Cream x Van Gold Eliz. the Queen x Miss Wisconsin Eliz. the Queen x Myrna Fay Greta Garbo x Daisy Mae Greta Garbo x Tarawa Helen of Troy x Drum Major

King Click x Buena Vista King Click x Fabulous King Tan x Drum Major Lady Jane x Madeline Brown Larime x Picardy Milford x Peggy Ogarita x Pioneer Picardy x Pfitzer's Century Vista Bonita x Silver Wings Vulcan x King Click White Gold x Silver Wings Daisy Mae x Diane, Drum Major, Gratitude, Grenadier, John von Konynenburg and Palermo (Seed from 6 crosses mixed)

Mixed seeds are also available in case you want the same quality, but with greater variety - 25 seeds for 50¢. (Limit 2 packets of mixed seeds to an individual.)

Our bulbs are clean and high-crowned, and you will find that we fill orders generously. We never substitute without your permission. Orders will be filled and set aside in the order received. Payment in full will be expected before shipment. We send out orders postpaid the last half of March.

Ten bulbs or bulblets will be sold at 8 times the single price (or 4 times the rate for 2) and 100 bulblets at 8 times the rate for 10; 5 at the 10 rate and 25 at the 100 rate. Because our growing space is limited, we do not undertake to supply over 10 bulbs or 100 bulblets of a variety to a customer, except where indicated in the list.

Discounts are given for all orders over \$3. On orders from \$3 to \$7, subtract 5% discount; from \$7 to \$15, subtract 10%; from \$15 to \$25, subtract 15%, and over \$25, subtract 20%.

Last year we were forced to withdraw a number of varieties early in the season due to unexpectedly heavy demand for them. This year our stock is much larger, but indications are that the demand for certain varieties will be such that our supply in them may not last out the selling season. We therefore suggest that you send in your order early. While anything we still have available is always at your service, March 15 is about the last date we are in good position to accept orders. We are by then busy sending out orders, making our planting plans and looking for the first daffodil.

ABIGAIL (3) Lavender for commercial and exhibition. Color not perfect, but considered excellent lavender by many growers.   100-32.00
ALGONQUIN (1-2) Tall clear red scarlet. Usually wins its class. Topflight commercial. Needlepoint type. 1025 10035
ALPINE (3-4) Medium sized lovely ruffled white. Would be excellent if a few inches taller.  Alpine (4) Attractive salmon, deeper blotch. Fine grower.  Alpine (5) Attractive salmon, deeper blotch. Fine grower.  Alpine (7) Beautiful clear creamy buff. Opens 8-10 large - 50 .35 325 florest formally placed, makes fine exhibition spikes.  Single bulbs only 1070 flower flower large around glad. Real beauty and makes fine spikes.  BARBARA JANE (3-4) Tall exhibition rosy lavender with deeper did and large spikes.  BEAUTY CLINIC (4) Beautiful ruffled light salmon pink. Short.  BEAUTY CLINIC (4) Beautiful ruffled light throat, small show record.  BEAUTY CLINIC (4) Beautiful ruffled light throat, small shibition grower.  BIRCH RED (2) Large deep red. A fine new variety. Stock scarce, but has fine show record where shown.  BIRCH RED (2) Large deep red. A fine new variety. Stock scarce, but has fine show record where shown.  BIRCK DIAMOND (3-4) Attractive ruffled deep red. Medium deep violet allowed and stocking grower.  BIACK PANTHER (3) One of the largest and darkest reds. Good spikes and appears to be best dark blue. Strong grower.  BIBESSED DAMOSEL (3-4) Clear ruffled pink. Opens 8-10 large strong grower.  BIBLIE LAGOON (2) Medium deep violet -almost self. Makes good spikes and appears to be best dark blue. Strong grower.  BIBLIE LAGOON (2-3) Large chocolate smoky, with bright orange blooms. Very pretty, flecks some in rain. Medium height.
